A BRIGHTER WAY TO GOVERN

The dawn of *Integrative Governance™* - A brighter way for your organization to navigate risks, illuminate opportunities and integrate capabilities.

NAVIGATE RISKS

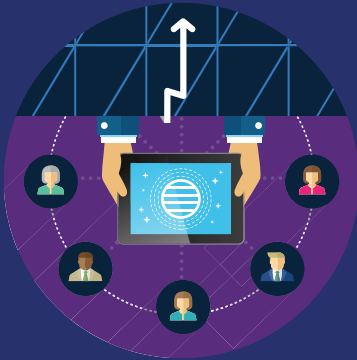

In today's business environment, every organization, no matter its size or sector, faces countless "make or break" risks. Yet, these same risks, when navigated with speed, precision and agility, can actually become fuel for competitive advantage, market opportunity and enhanced business performance.

Of course, this requires purposeful action - a new way of refining and leveraging your risk and governance processes to navigate risks, illuminate opportunities and integrate capabilities.

ILLUMINATE OPPORTUNITIES

Who says there's nothing new in risk and governance? Unlike traditional and unsustainable "rear-view mirror" approaches, Solomon365 offers a guided, forward-looking process. It equips you with proven diagnostic tools, strategies, how-to-guidance, roadmaps and action plans.

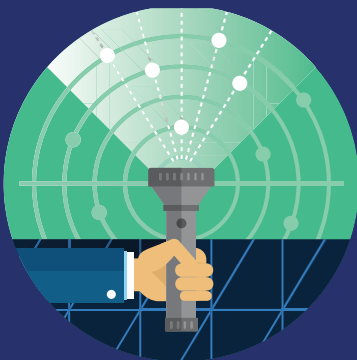

This illuminates ongoing opportunities to fine-tune and better leverage the three vital dimensions of an integrative governing system to drive success:

ELEVATE BOARD OVERSIGHT TO PROVIDE STRATEGIC GUIDANCE

OPTIMIZE MANAGEMENT EXECUTION TO PRODUCE RISK-INFORMED DECISIONS

INTEGRATE MONITORING VERIFICATION TO DELIVER VITAL INSIGHTS

INTEGRATE CAPABILITIES

No organization can make sound decisions without its leaders easily accessing, leveraging and sharing the necessary guidance and insights. One of the most powerful benefits of Solomon365 is that it helps connect and integrate the right people, capabilities and information. Everyone throughout your organization will now be better prepared to respond to increasingly complex risks and opportunities with enhanced speed, precision and agility.

What's more, because Solomon365 offers measurable results, you can leverage these new *Integrative Governance* capabilities to answer the following with more confidence and assurance:

- "Are we asking ourselves the right questions?"
- "Are the board, management and monitoring systems effective and integrated?"
- "How can we drive benefit from demonstrable *Integrative Governance* capabilities?"

Solomon365 - It's How You Know.
